Please note, as listed in the Proposal, Section B.21 of the Instructions to Bidders, this Contract includes an escalator clause for Price Adjustment of Bituminous Materials in accordance with PennDOT standards. In summary, in the event of an increase in the Asphalt Index over the course of the project, the Contractor reserves the right to request an increase for changes in material cost between bidding and construction. Conversely, the Township retains the right to request a decrease in event the asphalt index drops. The increase (or decrease) is solely calculated based upon the percentage exceeding the first 10% change in the index. Additionally, the escalator solely applies to the liquid asphalt content (typically 5%) of the materials, not the total tonnage. Refer to enclosed table illustrating potential increases. Please note, the attached metrics are only reference scenarios. The extent of how far the index will rise or fall cannot be predicted. As a historical reference, in 2022, the index jumped approximately 41%. In the event of an escalator request, the increase (or decrease) will reflect the actual index change for the period requested.

The total amount of the award to Shields Asphalt Paving, Inc. for this Contract is \$2,911,101.00

Upon award of O'Hara Township's, Sharpsburg Borough's, and Fox Chapel Authority's portions of the Contract, please notify Fox Chapel Borough and LSSE of the selections.
